## Amala College of Nursing Library – Users Monthly Usage

Amala College of Nursing Library was registered our user details in a gate register. As per Gate register, we calculate the percentage of average library users. Our users include 200 undergraduate students, 3 post graduate students and faculty members.

We took one month, March 2022 as a random sample. For this calculation firstly calculate the percentage of each day separately and count the total of this was divided by the total number of working days. Then we get the average of library users per day. Recently we implement new punching system for registering our library users.
